An enthusiastic and motivated software engineer looking for the opportunity to be a part of a vibrant team. With extensive experience in team collaboration and a passion for creative engineering, I strive to work for a company that would help me leverage my technical and cultural values.

RELEVANT EXPERIENCE

Junior Software Engineer Jan 2022 - May 2022 GoHock

Junior software developer role, which mainly included front-end development. Latter with my position in GoHock, we began to research and learn Flutter.io for Mobile app development.

React, Ruby on Rails, JavaScript, CSS & Flutter.io.

SOFTWARE ENGINEERING PROJECTS

Taskr Sep 2022 - Sep 2022 View App

Taskr allows users to create collaborative projects and keep track of which user has created, updated and completed individual tasks. Includes a live chat function.

React, Firebase, SASS, CSS & DND.

Nourished Aug 2022 - Aug 2022 View App

A web app that allows users to search for recipes based on their current pantry items. This includes user authentication that allows the storage of personalised ingredients.

React, Axios, APIs, Firebase & CSS.

Musik July 2022 - Aug 2022 View App

Created a functioning social media application that allows new musicians to share their SoundCloud music to a feed and create user profiles with bcrypt authentication. Both front and backend were developed with Ruby on Rails.

Ruby on Rails, Heroku, GitHub pages, CSS & Bootstrap.

ADDITIONAL EXPERIENCE

Assistant Team Leader 2020-2022 Consumer & Business consultant 2014-2020 Telstra

The team leader position consisted of coaching Customer Advisors daily to deliver sales and customer experience targets. This also included compliance and operational maintenance.
